

Serving Families Affected
by
**Fetal Alcohol
Syndrome**

Fetal Alcohol Spectrum Disorders have serious impacts on the families we serve. This workshop will help you:

- Understand how prenatal exposure affects the brain and impacts behavior
- Recognize physical and neurobehavioral symptoms of Fetal Alcohol Spectrum Disorders
- Identify intervention strategies that help affected individuals of all ages
- Apply new insights to existing program plans to improve outcomes
- Implement protective factors to minimize or prevent secondary disabilities
- Pre-screen for possible FASDs in children and adults
- Learn how to make appropriate referrals for diagnostic evaluations and services

PRESENTED BY HEALTHY FAMILIES ARIZONA IN PIMA COUNTY IN
PARTNERSHIP WITH TERESA KELLERMAN.

FASARIZONA.COM
