

Fetal Alcohol Spectrum Disorders: Understanding Effects, Improving Outcomes

Presented by Teresa Kellerman, Fetal Alcohol Resource Center Coordinator

Workshop for Professionals, Parents, and Providers

Tuesday, April 13, 2010

9:00 a.m. - 4:00 p.m. (one hour break for lunch)

Community Partnerships of Southern Arizona

CPSA Training Center ([map](#))

2502 N. Dodge (north of Grant), Tucson

Call the CPSA RSVP training line at (520) 318-6950 ext. 3000 to leave a voice mail

This training will offer insights into common FASD characteristics and practical guidelines for applying intervention strategies that work best for this population. Participants will learn the symptoms of FASD, the latest research on nutritional recommendations, how to maximize success for those affected, and resources for screening, evaluations, and family support services.

Certificates of attendance will be provided.

Childcare will not be available.

There is no fee for this training, but registration is required.
